THERMAL & ACOUSTICAL SOLUTIONS PRODUCTION STUDIOS

CITY BROADCAST TELEVISION NETWORK - TV STUDIO - TORONTO, CANADA | K-13 Light Gray

BODY OF PROOF PRODUCTION STUDIO - WARWICK, RHODE ISLAND, USA | K-13 Light Gray | 50,000 sf - 2" Thick

COLUMBIA COLLEGE MEDIA CENTER - CHICAGO, ILLINOIS, USA | K-13 Black

Post-production requires that sound control is a primary concern when designing a Production Studio, whether for a large movie studio or a small college television station. The hard surfaces and large open areas that are often present in these projects reflect sound, causing noisy reverberation when acoustically optimal footage is necessary.

CLASS A, CLASS 1

International Cellulose Corporation manufactures Class A, Class 1 Fire-Rated thermal and acoustical treatments in varying finishes to combat noise present in Production Studios. Often, these studios are housed in large metal buildings that also necessitate thermal control.

CUSTOM COLORS

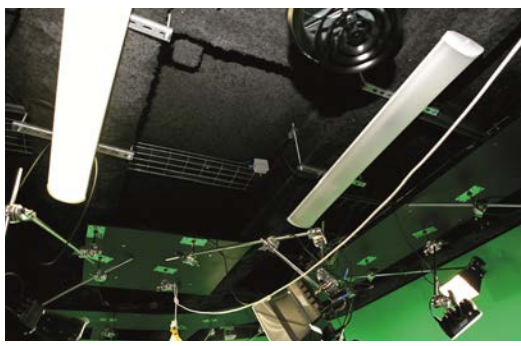

Our cellulose-based exposed finishes are spray-applied and conform to virtually any properly prepared substrate. They are the perfect solution for metal decking, concrete, and complex configurations. Though the standard colors are often the best option for studio applications such as these, all of our acoustical and thermal finishes are available in custom colors.

SUSTAINABLE

Additionally, our products are sustainable. We manufacture our finishes from 80% recycled material and may contribute to satisfying credits under the LEED® green building program. Our products are UL GREENGUARD Gold certified.

EXPERIENCE

With over 60 years in the industry, the Production Studio projects highlighted in this brochure are just a small example of the many types of projects that have benefited from the acoustical and thermal finishes offered by International Cellulose. No matter what your design requirements and budget constraints are, for new construction or renovation, our products can be customized to help you create the ideal space.

RUSSIAN RAILWAYS (RZD) STUDIOS - MOSCOW, RUSSIA | K-13 Black | 1,280 sf - 3/4" Thick

FREEMONT STUDIOS - SEATTLE, WASHINGTON, USA | K-13 Black | 23,000 sf - 3" Thick

WARNER BROS. FILM STUDIO & HARRY POTTER WORLD - LONDON, ENGLAND | K-13 Black | 375,000 sf
