

Project Details

Name: Ginza Japanese Restaurant
Location: Houston, Texas

Product Details

Product: K-13
Color: Black

Located in the heart of Houston's Galleria neighborhood, Ginza Japanese Restaurant is a long-time local favorite. One of the very first Japanese restaurants in the Houston area, Ginza has been serving traditional Japanese food and sushi since 1975. After many successful years of operations at its current location off of San Felipe street, Ginza recently underwent a transformative renovation project.

The restaurant features several private rooms for special events, an expansive dining room decorated with traditional Japanese decor, and a contemporary bar offering live karaoke several nights a week. To address the need for acoustics in the bar, without compromising the ceiling height or modern design, K-13 Black was utilized for the ceiling.

Spray-applied to the ribbed metal decking, K-13 serves as an exposed interior finish. Unlike hard surfaces and materials, which reflect sound, K-13 absorbs excessive/unwanted noise, making speech and music more intelligible, while contributing to the overall ambiance. In addition to acoustic performance, K-13 in Black compliments the lighting and modern design, while making the space feel larger.

Acoustic Performance

K-13 is applied in thicknesses from 1" up to 5" to provide the desired level of acoustical absorption. At 1", K-13 provides a NRC of .80.

Thermal Value

K-13 has a R-Value of 3.75 per inch. This demonstrates how K-13 helps keep a space at the right temperature, saving on costs and the environment.

Application

K-13 is spray-applied, between 1" and 5". It is engineered for application to common substrates and can adhere to complex or irregular surfaces.

Colorful Options

K-13 is available in standard colors, and can be manufactured in custom, integral colors for unlimited design options.

THUNDER BAY GRILLE

PEWAUKEE, WISCONSIN

Thunder Bay Grille, located in Pewaukee, Wisconsin, just outside of Milwaukee, is the perfect escape for a quick work lunch or a special event booked in one of their private dining rooms. The restaurant's spacious chic interior is the perfect juxtaposition of contemporary style and rustic elements creating a uniquely urban ambience that still manages to remain comfortably casual.

With such an expansive menu and energetic atmosphere, the restaurant has managed to establish itself as an ideal place to enjoy happy hour. With popularity, comes noise. The application of K-13 to the ceiling of the birch bar and dining area not only adds to the interior aesthetics but aids in sound control. Once K-13 has been applied, it absorbs unwanted sounds; leaving the space comfortable yet lively, while still contributing to the décor.
