

Project Details

Name: Texas Star Grill Shop
Location: Houston, TX

Product Details

Product: K-13
Color: Black

Texas Star Grill Shop is Houston's Grill Headquarters featuring a large variety of Charcoal Grills, Ceramic Grills, Wood Pellet Grills, Gas Grills, and Outdoor Kitchen Components. You can find all your grilling needs there. Designers wanted an open ceiling effect high enough to hang banners and signs. They wanted a nice quiet environment for the customers to relax and enjoy their shopping. For these reason, K-13 spray-on acoustical insulation was selected. K-13 black applied to the ceiling area offered the acoustics needed for this large open area.

CRAYOLA EXPERIENCE

DALLAS, TX

Crayola Experience Plano is where the magic of Crayola comes to life! With 60,000 square feet of attractions, Crayola Experience is Texas' most colorful family destination for interactive, creative play! Families typically spend 3-4 hours exploring the 25 hands-on attractions and gift shop!

To prevent the Crayola Experience from being over powered by the sound of excitement from the kids, the Beck Group chose K-13 in custom colors to be spray-applied to the ceiling. K-13 absorbs the unwanted sound produced by the numerous hard surfaces throughout the space, while enhancing and complementing the brightly colored attractions below.

ACOUSTIC PERFORMANCE

K-13 is applied in thicknesses from 1" up to 5" to provide the desired level of acoustical absorption. At 1", K-13 provides a NRC of .80.

THERMAL VALUE

K-13 has a R-Value of 3.75 per inch. This demonstrates how K-13 helps keep a space at the right temperature, saving on costs and the environment.

APPLICATION

K-13 is spray-applied, between 1" and 5". It is engineered for application to common substrates and can adhere to complex or irregular surfaces.

COLORFUL OPTIONS

K-13 is available in standard colors, and can be manufactured in custom, integral colors for unlimited design options.
