

### Project Details

**Name:** Union Kitchen  
**Location:** Houston, TX

### Product Details

**Product:** K-13  
**Color:** Black

Union Kitchen is a beloved Houston eatery offering “the perfect UNION of good friends and great food, blending Global Cuisine with Southern Hospitality.” K-13 Black was utilized for the ceiling of their new location in Houston.

In support of Union Kitchen’s mission to bring good friends and great food together, K-13 Black was chosen to provide sound control at their new location in Houston. Spray-applied to the ceiling of the spacious dining room, K-13 absorbs excessive, unwanted noise to create a comfortable environment. In addition to acoustic performance, K-13 in Black contributes towards the stylish, chic interior.

K-13 is a high-performance, thermal and acoustical finish system. It is available in seven standard colors and in custom integral colors. No matter your design requirements or budget constraints, K-13 can be customized to meet your project needs. Parking garages, warehouses, restaurants, gymnasiums, sports facilities, and schools are just a few of the many projects that benefit from K-13. Whether for new construction or renovation, International Cellulose has an acoustical and thermal solution to help you create the ideal space.

# ACOUSTIC SOLUTIONS FOR SIMILAR K-13 PROJECTS

## WAREHOUSE BAR & GRILLE

BOSTON, MASSACHUSETTS

Warehouse Bar and Grille is a masterful fusion of an upscale eatery and neighborhood sports bar. Warehouse features an enticing menu of market fresh items and gastropub fare in a stylish and inviting environment making it the ideal place for business lunches, sporting events, happy hour, and Sunday brunch. Architect Donald Lang, of Newton, Massachusetts, designed Warehouse with edgy details including concrete flooring, industrial lighting, open ductwork, and metal accents which contribute to the restaurant's sleek yet, contrasting atmosphere.

## ACOUSTIC PERFORMANCE

K-13 is applied in thicknesses from 1" up to 5" to provide the desired level of acoustical absorption. At 1", K-13 provides a NRC of .80.

## THERMAL VALUE

K-13 has a R-Value of 3.75 per inch. This demonstrates how K-13 helps keep a space at the right temperature, saving on costs and the environment.

## APPLICATION

K-13 is spray-applied, between 1" and 5". It is engineered for application to common substrates and can adhere to complex or irregular surfaces.

## COLORFUL OPTIONS

K-13 is available in standard colors, and can be manufactured in custom, integral colors for unlimited design options.
