

Project Details

Name: The Fellowship Church
Location: Houston, Texas

Product Details

Product: K-13
Color: Black

The Fellowship Church in Houston, Texas is a multi-generational, multi-cultural congregation that needed acoustical material to absorb unwanted sound. K-13 was chosen for its excellent acoustical and insulative properties. When applied, K-13 creates small pockets of air. These pockets dramatically reduce reverberation (echo) and other ambient noise.

K-13 Black was applied to the ceiling of The Fellowship Church to absorb the unwanted reverberation and as a secondary benefit, to reduce the glare from stage lighting.

K-13's insulation properties will also save The Fellowship Church money over time on heating and cooling costs. K-13's high R-Value will keep winter and summer temperatures outside and controlled temperatures inside. By reducing heating and cooling costs and providing acoustical benefits, K-13's installation can easily be justified.

ACOUSTIC & THERMAL SOLUTIONS

FOR SIMILAR K-13 PROJECTS

FELLOWSHIP BIBLE CHURCH

LITTLE ROCK, ARIZONA

The Fellowship Bible Church's new facility included 3 sanctuaries to accommodate its growing congregation. Effective sound control was essential in all three spaces. At a 1.5 inch thickness K-13 applied to the ceiling provides an NRC of 1.0 (100%). K-13's insulation properties and monolithic bond will also save the Fellowship Bible Church money over time on heating and cooling costs. K-13's high R-Value will keep winter and summer temperatures outside and climate controlled temperatures inside.

Acoustic Performance

K-13 is applied in thicknesses from 1" up to 5" to provide the desired level of acoustical absorption. At 1", K-13 provides a NRC of .80.

Thermal Value

K-13 has a R-Value of 3.7 per inch. This demonstrates how K-13 helps keep a space at the right temperature, saving on costs and the environment.

Application

K-13 is spray-applied, between 1" and 5". It is engineered for application to common substrates and can adhere to complex or irregular surfaces.

Colorful Options

K-13 is available in standard colors, and can be manufactured in custom, integral colors for unlimited design options.
