

Project Details

Name: Amazing Spaces Storage Center

Location: Houston, Texas

Product Details

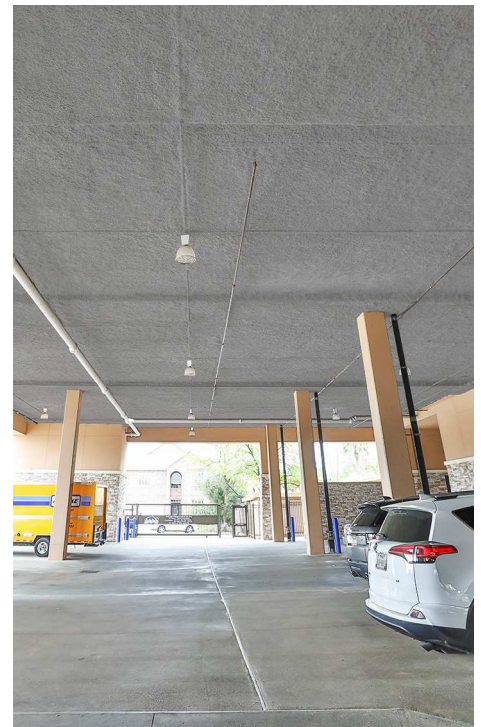

Product: K-13

Color: Gray

K-13 was utilized for Amazing Spaces, a premier storage facility in Houston, Texas. The storage center features an expansive covered drive for easy, efficient loading, and unloading no matter what the weather is. Spray-applied to the sheltered space, K-13 provides exceptional insulation, preventing heating and cooling loss between the climate-controlled storage above the covered drive. K-13 provides a durable surface, proven to withstand Houston's humid air and inclement weather conditions.

K-13 is a high-performance, thermal and acoustical finish system. It is available in seven standard colors and in custom integral colors. No matter your design requirements or budget constraints, K-13 can be customized to meet your project needs. Parking garages, warehouses, restaurants, gymnasiums, sports facilities, and schools are just a few of the many projects that benefit from K-13.

Whether for new construction or renovation, International Cellulose has an acoustical and thermal solution to help you create the ideal space.

ACOUSTIC SOLUTIONS FOR SIMILAR K-13 PROJECTS

Acoustic Performance

K-13 is applied in thicknesses from 1" up to 5" to provide the desired level of acoustical absorption. At 1", K-13 provides a NRC of .80.

Thermal Value

K-13 has a R-Value of 3.75 per inch. This demonstrates how K-13 helps keep a space at the right temperature, saving on costs and the environment.

Application

K-13 is spray-applied, between 1" and 5". It is engineered for application to common substrates and can adhere to complex or irregular surfaces.

Colorful Options

K-13 is available in standard colors, and can be manufactured in custom, integral colors for unlimited design options.

FAN PIER

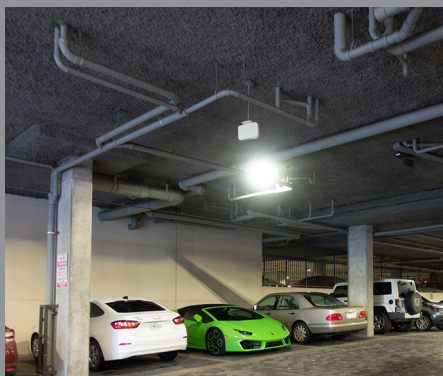

BOSTON, MASSACHUSETTS

Flame Spread of 5, Smoke Development of 5, Class 1 Class A Noncombustible K-13 gets tapped for the below grade garage at the Fan Pier Development. Providing excellent R-values, along with high durability and superior aesthetics, K-13 does not require expensive and unproven fire delay coatings.

No matter what your design requirements and budget constraints are, ICC's products can be customized to meet your needs. Parking garages, warehouses, restaurants, gymnasiums, sports facilities, and schools are just a few of the many types of projects that benefit from K-13. Whether for new construction or renovation, International Cellulose has an acoustical and thermal solution to help you create the ideal space.
