

Project Details

Name: Whole Foods
Location: Houston, TX

Product Details

Product: K-13
Color: Light Gray
Coverage: 10,000 Sq. Ft.

Architect Details

Architect: Ziegler
Cooper Architects
Location: Houston, TX

K-13 Gray was chosen for the parking area at Whole Foods in Houston, Texas. The project called for a product that could withstand Houston's humid air conditions, while preventing excessive thermal exchange between the conditioned storage areas above and the parking area below.

K-13 utilizes a patented adhesive system that provides a strong, durable bond to virtually any substrate including concrete, metal, wood, glass, Styrofoam and urethane. K-13 is available in seven standard colors and integral custom colors.

No matter what your design requirements and budget constraints are, ICC's products can be customized to meet your needs. Parking garages, warehouses, restaurants, gymnasiums, sports facilities, and schools are just a few of the many types of projects that benefit from K-13. Whether for new construction or renovation, International Cellulose has an acoustical and thermal solution to help you create the ideal space.

THERMAL SOLUTIONS

FOR SIMILAR K-13 PROJECTS

Acoustic Performance

K-13 is applied in thicknesses from 1" up to 5" to provide the desired level of acoustical absorption. At 1", K-13 provides a NRC of .80.

Thermal Value

K-13 has a R-Value of 3.75 per inch. This demonstrates how K-13 helps keep a space at the right temperature, saving on costs and the environment.

Application

K-13 is spray-applied, between 1" and 5". It is engineered for application to common substrates and can adhere to complex or irregular surfaces.

Colorful Options

K-13 is available in standard colors, and can be manufactured in custom, integral colors for unlimited design options.

BLUE CROSS & BLUE SHIELD H.Q.

CAMBRIDGE, MA

Blue Cross and Blue Shield insured they would not have cold floors in their Providence, Rhode Island Headquarters by utilizing K-13 in their parking garages. Applied at 4.04" in Light Gray to the ceiling to match the cementitious fireproofing, the K-13 provides a monolithic coating that achieves an R-19. Ure-K was also utilized in the exterior walls over foam to provide the required 15-minute ignition delay.
