

Verben Coffee features some of the finest craft coffee, espresso, tea, and pastries that Houston has to offer. Located in the upscale Memorial community the craft coffeehouse, which opened in 2019, has quickly become a favorite meeting place for locals due to its great atmosphere and inviting ambiance.

In order to create an enjoyable environment, the acoustics were key to the store's successful design. Since most of the surfaces within the space consist of hard materials, which reflect sound, K-13 in light gray was selected for its exceptional ability to absorb excessive noise. Spray-applied to the ribbed metal decking, K-13 serves as an exposed finish that compliments the store's modern yet cozy design. In addition to acoustic performance, K-13 provides thermal R-value and helps to reduce heating and cooling costs.

WAREHOUSE BAR & GRILLE

BOSTON, MASSACHUSETTS

Warehouse Bar and Grille is a masterful fusion of an upscale eatery and neighborhood sports bar. Warehouse features an enticing menu of market fresh items and gastropub fare in a stylish and inviting environment making it the ideal place for business lunches, sporting events, happy hour, and Sunday brunch. Architect Donald Lang, of Newton, Massachusetts, designed Warehouse with edgy details including concrete flooring, industrial lighting, open ductwork, and metal accents which contribute to the restaurant's sleek yet, contrasting atmosphere.

Acoustic Performance

K-13 is applied in thicknesses from 1" up to 5" to provide the desired level of acoustical absorption. At 1", K-13 provides a NRC of .80.

Thermal Value

K-13 has a R-Value of 3.75 per inch. This demonstrates how K-13 helps keep a space at the right temperature, saving on costs and the environment.

Application

K-13 is spray-applied, between 1" and 5". It is engineered for application to common substrates and can adhere to complex or irregular surfaces.

Colorful Options

K-13 is available in standard colors, and can be manufactured in custom, integral colors for unlimited design options.
