

SonaSpray “fc”[®]

Acoustical finish

DESIGN SOLUTION

DYNAMIC OPEN-PLAN OFFICE

Project Details

Name: LinkedIn Omaha H.Q.
Location: Omaha, Nebraska

Product Details

Product: SonaSpray “fc” Arctic White
Details: 200,000 SF at .75” Thick

Architect Details

Name: Gensler
Location: USA

LinkedIn’s new Omaha Headquarters is a dynamic work environment that is expertly aligned with the company’s people-first approach and future vision. Designed by Gensler, an architectural firm known for creating beautiful workspaces around the globe, the new facility features over 200,000 square feet of flexible co-working areas or “neighborhoods”, a food hall, a barista bar, and a state-of-the-art fitness studio.

To address the need for acoustical control throughout the open-concept areas, without compromising the project’s stringent sustainability and indoor environmental quality criteria, SonaSpray “fc” in Arctic White was spray-applied to the ceiling throughout the space. Unlike hard surfaces and materials, that reflect sound, SonaSpray “fc” absorbs echo, reverberation, and excess noise. In addition to acoustic performance, SonaSpray “fc” in Arctic White provides high light reflectance and optimizes natural daylighting. SonaSpray “fc” is GREENGUARD Gold Certified, supporting healthy indoor air quality, and is a Cradle to Cradle[®] Bronze certified product. Cradle to Cradle Certified[®] is the global standard for products that are safe, circular, and responsibly made.

ACOUSTIC SOLUTIONS

FOR SIMILAR SONASPRAY “FC” PROJECTS

Acoustic Performance

SonaSpray is applied in thicknesses from .5” up to 1” to provide the desired level of acoustical absorption. At 1”, SonaSpray provides a NRC of .85.

Light Reflectance

SonaSpray White, and SonaSpray Arctic White provide high light reflectivity, and can be used to maximize daylighting and reduce the need for excessive lighting.

Application

SonaSpray is spray-applied, between .5” and 1”. It is engineered for application to common substrates and can adhere to complex or irregular surfaces.

Colorful Options

SonaSpray “fc” is available in standard colors, and can be manufactured in custom, integral colors for unlimited design options.

INSMED CORPORATE H.Q.

BRIDGEWATER TOWNSHIP, NEW JERSEY

Insmmed unveiled its new Corporate Headquarters in Bridgewater Township, New Jersey. Designed by Alliance Architecture, the open-concept space serves as a reminder that the company’s existence is to help those suffering to lead better lives. To ensure the expansive, open-plan space would serve as a comfortable working environment, acoustical finishes were key to controlling excessive noise. SonaSpray “fc” in Arctic White was utilized throughout the facility to address the need for acoustics without compromising the modern design. The application of SonaSpray “fc” provides an attractive, seamless finish that absorbs echo, reverberation, and excessive noise.
